

On-line links to help with home learning

Alongside the work being provided by class teachers, here are some other websites that provide appropriate learning activities for a range of ages.

www.purplemash.com- this is tool that allows you to embed digital and computing skills across the whole curriculum for KS1 and KS2.

www.whiterose.com- this is a Maths provider which is linked directly to the national curriculum. It provides great methods along with some detailed reasoning questions based on skills taught. They also do problem of the day which is great.

www.twinkl.co.uk- here you will find a wealth of resources relating to all areas of the curriculum- it is also differentiated. There are lots of teaching PowerPoints resources to follow up and reading around a given topic. The children are used to the three star system in Topic and Science.

www.2simple.com- this is very similar to Purple Mash- it allows digital learning.

www.classroomsecrets.co.uk- this site provides learning packs specifically for home learning across the key stages. KS1 are using this alongside their current planning grids coming home.

www.atschool.co.uk- very similar to classroomsecrets.co.uk

www.popsugar.co.uk- Reading challenges for all.

www.chatterpack.net- a range of cross curricular activities linking to the National Curriculum. Also some SEND resources.

www.oxfordowl.co.uk- Reading linked to Read Write Inc- lovely for KS1 and EYFS as we are following this program.

And there's more.....

www.phonicsplay.co.uk- online, interactive phonics site with games based on the phases of Letters and Sounds. This will be great for KS2 for revision in Year 3 and 4 and for KS1 to apply some of their phonics skills.

www.5adaytv.co.uk- a physical, Get active website for all to access in your homes. It is great fun and your dance moves will be outstanding in no time! More to come from Mr Baxter himself!!!

www.ictgames.com/literacy.html - an online resources with lots of interactive games and activities linking to curriculum based skills.

www.bbc.co.uk/bitesize/ks1/English- lots of activities again linking to the National Curriculum but with video clips. Particularly nice RE and languages resources- great time to learn a new language or about a new faith.

<https://imoves.com/the-imovement>- another get moving website- great for wake and shake in the morning and maybe after lunch. Suitable for all.

www.topmarks.com- lots of interactive cross curricular links and some lovely bits that are seasonal e.g. Easter.

www.planbee.com -home learning packs for all Key Stages.

www.rigb.org/families/experimental - The Royal Institution also has lots of ideas for fun science at home with video guides, info sheets and certificates to download.

<https://www.saps.org.uk/> - SAPs Science and Plants for Schools creates opportunities for children to find out more about plants.

<https://www.scouts.org.uk/the-great-indoors/>
