

## PSHE

This term we will be learning about Managing Risks and Drug Education with Mrs Wallace.

## RE

This term we will be learning about what it is like to follow God for different people, including Noah and his family.

## PE

This term we will be developing our Tri-Golf skills, followed by Gymnastics. In Outdoor PE we will be learning skills involved in Cricket and Athletics.

## Art / Design and Technology

During the Spring Term we will be discovering how runes were used in Viking times and artists that have depicted different Norse Gods.

## Maths

This term we will be continuing to develop our knowledge of number facts and the number system. We will be building on the development of the children's knowledge of the times table facts as well as expanding the knowledge of the four operations.

We will also be continuing to allow the children opportunities to apply their knowledge to real life situations.

## Topic

During Topic this term we will be learning about 'The Struggle for Power' between different groups of people such as the Anglo-Saxons and The Vikings.

We will discover what the country was like before the Vikings arrived; the impact of Alfred the Great; the different battles that took place and how they influenced the changing landscape of Britain.

## MFL: French

During this term we will be learning to name different types of weather.

## Music

This term we will be learning about some Australian songs to tie in with the Commonwealth Games and learning to read music to help us play a class piece. We will also learn songs for the Easter Service.

## Year 3 and 4 Spring Term A Struggle for Power

## Literacy

We will be learning to write a range of different text types. These will all be linked to the topic and children will have opportunities to write poetry, read and write their own letters from the point of view of a Viking raider. We will also study a range of narratives.

## Science

Our Science Topic this term is States of Matter. We will have the opportunity to investigate a wide range of questions.

We will be learning a lot of new technical vocabulary as well as building on our knowledge of materials and their properties.

## Computing

This term we will be looking at Animation using Scratch and Presenting Information using PowerPoint. We will link this to our main topic.
